

NOT ONLY TV

Digimedia Player

**Digimedia Player ,
brings you the un-limited digital experience !**

Enjoy digital **photos**, **music** and **movies** on your TV or Monitor,
simply with Digimedia Player !

Review your digital photos with music playing in the background, play MP3 music with the connection to TV set and enjoy down-loaded movie files at your own home theatre with friends, Digimedia Player now makes these digital entertainments all possible and affordable !

With its great features, you can easily watch high quality videos (MPEG 1/2/4), listen to digital music files (MP3) and watch a slideshow of your pictures on a big screen, all in one device --- Digimedia Player.

Digimedia player is not only a digital frame, but also a compact card reader which supports up to 10 different kinds of storage: CF Type I/II, Smart media, MS, MS Duo, MS pro, SD & mini SD, MMC and RSMMC.

All you need to do just simply connect the device with your big TV screen or LCD monitor and share your magic moments with your friends and family.
