

# TV tuner cards you are buying is MPEG sound licensed from **Sisvel?**

seizing products and marketing material. This company owning the right of audio MPEG is now approaching all TV cards maker and distributors in order to rule their position in the market. Lifeview srl as you can see here below is licensed already from 2 Years and we will use this favorable position to increase presence in the market since most of competitors are not ready and certified.

Please note that Sisvel power can reach custom when importing as well as retail channel when the products get into the shops.
